Commission Process

First, we'll discuss your project, including subject, size and composition.

Before I start working on your finished drawing, I'll do a quick sketch of the design we discussed.

Depending on composition and size, once started it may take several months to complete a drawing. I'll provide you with periodic updates so you can see how it's coming along.

Reference Photos:

- The higher the quality and more detailed, the better. High resolution, in focus digital photos are preferred.
- Take photos from a lower level instead of looking down – with the light source ideally behind the photographer and not behind the subject.
- To avoid copyright issues, if you provide a photo for me to use, it **must** be one you've taken yourself or that you can obtain **written** permission from the photographer for my use.
- If you prefer and are local to me, for an additional fee, we can arrange a time and place where I can take reference photos of your subject. I'll then provide a few selections for you to choose from.
